Find missing values. Specific knowledge required is minimal.

One answer per item is allowed.

However, a value from 0 to 10 will be assigned to each answer (rule 07) and sending your explanations is essential part of this competition. Good luck!

This is actually a possible part of my new numerical test Numodyssey (actually its harder part - Numiracle). The names were suggested by Jeff Christopher Leonard.

In final version, three attempts will be allowed. Participation in IVIQ Season III counts as one submission.
