

IVIQ 16 Test

This is a possible part of my future numerical IQ test. In final form of the test, two attempts will be allowed. Participation in this competition which ends 31 May 2015 counts as a first submission.

Important: If you do not give solutions to some items, you can send them later and only those items to be included as part of your first submission. To identify each competitor, I ask for symbolic amount of 2€ paid by PayPal to equaife@o2.pl. If you have any questions, write to me at equaife@o2.pl. Explanations for your answers are not necessary but are welcomed.

- 1) 1, 20002, 50000000034, ?, ?, 10023406
- 2) 222465, 84611, ?, 382
- 3) 343, 3777, 15556331, ?, ?, 177781
- 4) $\frac{?}{2}$, 3125, $10\frac{?}{?}$, $\frac{?}{4}$, 33554432
- 5) 12811, 71012, 0.750167, ?
- 6) 6, 9, 0, 1 : ?, 6901, ?, 6901
- 7) 235711, 404063, 134666, ?, ?
- 8) 876543, 543212, 2345, ?, 9
- 9) 28, 423, 8, 42, 399, 6, 81, 476, ?
- 10) 12345688, 3579111416, 82246612124, ?
- 11) $21124-2111=14$, $213700/213=0.01$, $2134+1111=?$
- 12) 123456789, 516273849, 012015018, ?, 100101600
- 13) 27162, 3581, 6, ?, 1358
- 14) 1234, 122334, ?, 124000042390000934
- 15) 2222444668, $1111/2112/313/4$, ?, ?, $1/2/2/3/3/4$
